

About Nyköping

Good location close to motorway, railroad, port and airport

Nyköping is located 100km south of Stockholm, with around two million people living within a 100km radius. Nyköping is easy to get to, and has good connections for extended travel. Nyköping is close to most things, and is within commuting distance to the labour markets in Stockholm, Norrköping and Linköping.

Stockholm Skavsta Airport is only 7 minutes from the centre of Nyköping, with around 50 different destinations to the rest of Europe. The E4 motorway runs past Nyköping, with around 25 000-30 000 cars per day. By train you reach Stockholm in approximately one hour and Norrköping in 30 minutes.

The Port of Oxelösund is situated 15km from Nyköping, with direct access to the quayside from road and rail networks.

Trade and industry in Nyköping today

Nyköping Municipality regards growth as a prerequisite for the development of the municipality. Today, there are around 5 000 registered companies in the municipality. Of these, 80 companies have more than 25 employees and 30 have more than 50 employees. The proportion of one-man companies is more than 60%. There are around 22 600 jobs within the municipality.

Adult education within Campus Nyköping offers tailor-made commissioned education.

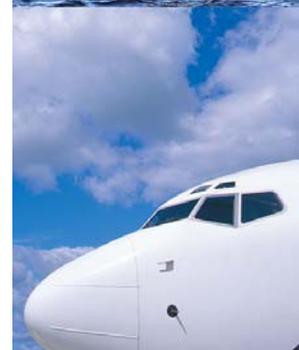

The business sector in Nyköping Municipality is typical for Swedish county towns. There is a large public sector, a large private hospitality and service sector and a small proportion of manufacturing industry.

In addition to Nyköping Municipality and the County Council, major employers include SSAB in Oxelösund, Eberspächer Exhaust Technology Sweden, Schneider Electric, Stockholm Skavsta Airport and ABB Cewe-Control.

Land and premises

In Nyköping Municipality we can offer building plots of e.g. 50 000 m² or more. Naturally we can also offer smaller plots, as desired. See the attached map of building land.

When it comes to existing premises, we have a large number of serious and reputable property owners who offer premises for different types of activities. In addition, Nyköping Municipality has developed a Business Park with good logistics on the Arnö industrial estate. New, modern premises are available for rent.

Nyköping invests in growth

There is agreement among local politicians from all parties to invest actively in growth. Since 2003, the campaign “Live in Nyköping” has successfully attracted people to the area. Growth is necessary for the development of community services, which characterise Nyköping today. The goal is an annual population growth of 700 people net.

Vision 2020

Nyköping is a sustainable municipality offering unique opportunities with local and international proximity.

Internationalisation, with its cultural diversity, increased mobility and changed attitudes and values; rapid technological development; and expected climate change are factors that will greatly influence Nyköping Municipality and its activities. This vision reflects Nyköping today and in the future.

Development group

The municipality’s economic development department, Näringslivsenheten, has engaged a development group which serves as an advisory board to facilitate collaboration between the municipality and the business sector. The group will also take initiatives to increase growth and develop new businesses. The group consists of key people working with different aspects of business development in Nyköping.

The development group’s Vision for the business sector:

In Nyköping Municipality it’s easier to start, establish, run and develop businesses. It’s attractive to live in Nyköping.

Welcome to contact us!

Maria Karlsson, head of Näringslivsenheten at Nyköping Municipality and Hans Rainer, MD at ONYX , Nyköping and Oxelösund’s business development company, are happy to help businesses with all issues. The municipality also has a service group to facilitate the handling of inquiries.
